

**46TH
ANNUAL REPORT 2021-22**

VENKY'S (INDIA) LIMITED

**Padmashree Late Dr. B.V. Rao
(1935-1996)**

"VH Group is passionately committed in bringing quality and technology to the Indian poultry industry."

"Technologically Indian poultry can match the world's best. Our productivity levels both in layer and broiler segments are second to none. Yet we also feel small, for there is so much to be done and so much more that can be done."

"The poultry industry must become self-supporting and self-reliant through better productivity, scientific management and an organised marketing effort."

"All our plans and programmes should be aimed at ensuring that the small farmer continues to remain in the industry and prosper."

"Under the Indian conditions, the small farmer is the backbone and the kingpin of our industry and he will continue to be so far all time to come."

Padmashree Dr. B. V. Rao

A Message From The Chairperson

Dear Shareholders,

I hope that you are well and in good health.

Venky's performance for the year 2021-22 is seen reasonable in spite of certain adverse factors. During this year we have seen very high increase in the prices of soya and maize which are the major ingredients of the poultry feed. Soya prices have gone up by 78% and maize by 32%. Such a steep increase could not be passed on and, as a result, the profit margins of the Poultry and Poultry Products Segment of the Company has been severely affected. However, the performance of the Animal Health Products and Oilseed segments have been good, hence the performance of the Company as a whole has been satisfactory despite several challenges.

The Board has recommended a dividend of Rs. 13 per share (130%) for the year ended 31st March, 2022.

The various expansion projects undertaken by the Company have started contributing to the sales turnover of the Company. Overall sales turnover has gone up by 41% at Rs.4,400 cr. in FY 22 as compared to the previous year.

A green field project has been initiated in the Animal Health Products Segment, through establishing a project for manufacturing of veterinary medicines in powder and liquid forms to cater growing demand of poultry industry, at an estimated cost of Rs.30.00 cr. The project is expected to be completed by March 2023.

As the demand for the Company's products is increasing steadily, the Company will review its production capacities regularly and will take appropriate measures in the interest of the shareholders and to keep the growth momentum intact. Increase in input costs is definitely a significant factor for the Company but such challenges have to be faced. However, our commitment is to deliver improved performance in the coming years.

I wish you and your family all the best and good health.

IMPORTANT COMMUNICATION TO SHAREHOLDERS

Following are the Company's recommendations to its shareholders:

Green Initiative

We seek the support of our shareholders in helping us saving our environment by registering their email id with the company for receiving all the communication i.e. Annual Report, various notices etc. through email as permitted by the law. Investors willing to avail the electronic mode of communication shall register their email id by filling and sending the form appearing on page no. 165 of this annual report.

Open demat account and dematerialise your shares

Members are requested to convert their physical shares into demat form. Holding shares in demat form helps investors to get immediate transfer of shares. No stamp duty is payable on transfer of shares held in demat form and risk associated with physical certificates such as forged transfer, loss of share certificate or torn certificates are avoided. Also transfer of shares, of a listed company, are prohibited in physical form. Hence, it is advised to dematerialise your shares.

Consolidate multiple folios

Members holding shares in identical order or names in more than one folio are requested to write to the company to consolidate their shares and send relevant share certificates for consolidation. This would facilitate the member in one point tracking of his/her holding and corporate benefits.

Appoint a Nominee

Investors are requested to appoint a nominee for their shareholding. Nomination would help the nominees to get the shares transmitted in their name without any hassles. Investor should register their nomination in case of physical shares with the Registrar and Share Transfer Agent of the Company i.e. M/s Bigshare Services Private Limited and in case of demat holding with their respective Depository participant.

NOTES :

- a. The Explanatory Statement pursuant to Section 102 (1) of the Companies Act, 2013 with respect to the special business set out in the Notice is annexed hereto. The information pursuant to Regulation 36(3) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, in respect of item no. 3, 5 and 6 is given in the Report of Corporate Governance, which forms part of Directors' Report and members are advised to refer to the same.
- b. In view of the resurgence of Covid-19, the Ministry of Corporate Affairs (“MCA”) has vide its circular dated May 5, 2022 read with earlier circulars in this regard (collectively referred to as “MCA Circulars”) permitted the holding of the Annual General Meeting (“AGM” or “Meeting”) through Video Conferencing / Other Audio Visual Means (VC / OAVM), without the physical presence of the members at a common venue. In compliance with the provisions of the Companies Act, 2013 (“Act”), SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“SEBI Listing Regulations”), MCA circulars as stated above, the AGM of the Company is being held through VC /OAVM. The members intending to attend the meeting will be allowed to participate through VC / OAVM details of which are set out hereinafter.
- c. As per provisions of the Act a member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote in the meeting instead of himself / herself. Since this AGM is being held pursuant to the MCA Circulars, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM and hence the Proxy Form and Attendance Slip are not annexed to this Notice. However, Corporate Members intending to authorize their representatives for attending the AGM are requested to send a scanned certified copy of the board resolution authorizing their representative to attend through VC/OAVM and vote on their behalf in the AGM on corp.shares@venkys.com and/or rohan.bhagwat@venkys.com.
- d. PURSUANT TO THE PROVISIONS OF SECTION 108 OF THE COMPANIES ACT, 2013 AND RULE 20 & RULE 21 OF COMPANIES (MANAGEMENT AND ADMINISTRATION) RULES, 2014, THE COMPANY IS PLEASED TO PROVIDE ITS MEMBERS THE ELECTRONIC FACILITY TO EXERCISE THEIR RIGHT TO VOTE IN RESPECT OF BUSINESS MENTIONED IN THE NOTICE. THE BUSINESS AT THE AGM MAY BE TRANSACTED THROUGH E-VOTING SERVICES PROVIDED BY CENTRAL DEPOSITORY SERVICES LIMITED (CDSL). THE INSTRUCTIONS AS REGARD TO AVAILING E-VOTING FACILITY IS ANNEXED.
- e. In compliance with the aforesaid MCA Circulars and SEBI Circular Notice of the AGM along with the Annual Report is being sent only through electronic mode to those Members whose email addresses are registered with the Company/ Depositories. Members may note that the Notice and Annual Report will also be available on the Company's website www.venkys.com and websites of the Stock Exchanges

Venky's (India) Limited

i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively.

- f. Since the AGM will be conducted through VC/OAVM means, to conduct the AGM in a smooth and seamless manner only those shareholders will be allowed to speak at the AGM who have pre-registered themselves for the same with the Company. The Company hence requests members to opt any one of the following methods for obtaining answers to their queries / making suggestions:
- Members seeking any information with regard to the accounts or any matter to be placed at the AGM, are requested to write to the Company on or before 05.00 p.m. on 17th September, 2022 through email on corp.shares@venkys.com and/or rohan.bhagwat@venkys.com and such email shall mandatorily mention the name of the shareholder, demat account number / folio number, email id and contact number of the shareholder. The same will be replied by the Company suitably.
 - Members who intend to speak at the AGM shall register with the Company by sending an email on or before 05.00 p.m. on 17th September, 2022, through email on corp.shares@venkys.com and/or rohan.bhagwat@venkys.com.

The Company will allow only the pre-registered members to speak at the AGM.

Members are requested to discuss or ask queries only on the Accounts or business of the Company or any other agenda of the 46th AGM so that effective question answer session can take place and queries posed by major shareholders are addressed. The Company reserves the right to restrict the number of questions and number of speakers, depending upon availability of time as appropriate for smooth conduct of the AGM.

- g. Subject to the provisions of the Companies Act, 2013, dividend as recommended by the Board of Directors, if declared at the meeting, will be paid within a period of 30 days from the date of declaration, to those members whose names appear on the Register of Members as on the closing hours of Friday, 9th September, 2022
- h. The Company has appointed its Secretarial Auditor Mr. P. L. Shettigar as the Scrutinizer for scrutiny of votes casted through evoting mechanism for the ensuing AGM. The scrutinizer will submit his report and voting results within the statutory time limit.
- i. Members wishing to claim dividends, which remain unclaimed, are requested to correspond with Mr. Rohan Bhagwat, Company Secretary or Mr. Nikhil Borlikar, Investor Grievance Cell at the Company's registered office. Members are requested to note that, dividends not claimed within seven years from the date of transfer of unclaimed dividend to the Company's Unpaid Dividend Account, will, as per the provisions of Companies Act, 2013, to the extent applicable, be transferred to the Investor Education and Protection Fund (IEPF). Also, shares of members who do not claim dividend for a period of 7 consecutive years will be transferred to IEPF and hence members are requested to claim their dividends in time.
- j. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit their PAN to their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN to the Company / Registrar and Transfer Agent.
- k. The documents referred to in the Notice, if any, will be available for inspection at the Company's registered office during normal business hours on working days up to the date of the AGM.
- l. In terms of the Listing Regulations, securities of listed companies can only be transferred in dematerialized form with effect from 1 April 2019. In view of the above, Members are advised to dematerialize shares held by them in physical form.
- m. Since the AGM is conducted through VC/OAVM, Route map for the venue of AGM is not required and hence not enclosed with this notice.

Additional Information pursuant to Regulation 36(5) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 in relation to Item No.4 of the Notice

The present statutory auditors of the Company M/s. B. D. Jokhakar & Co. will complete their term as statutory auditors on conclusion of the ensuing AGM. The Board of Directors (the Board) of the Company, on the recommendation of the Audit Committee has recommended for approval of members, appointment of M/s. Sudit K. Parekh & Co. LLP, Chartered Accountants (having firm registration no. 110512W/W100378), as the statutory auditors of the Company for a period of five years from the conclusion of this AGM till the conclusion of the sixth consecutive AGM. The remuneration payable to Sudit K. Parekh & Co. LLP shall be decided mutually between the Board and Sudit K. Parekh & Co. LLP for the entire tenure. It is proposed to pay fees up to Rs.75,00,000/- (Rupees Seventy Five Lacs only) towards statutory audit for the year ending March 31, 2023 plus applicable taxes and reimbursement of out of pocket expenses. The Board of Directors on the recommendation of Audit Committee shall approve the revision in the remuneration of the Statutory Auditors for the balance part of the tenure, if necessary, based on the performance review and any additional efforts on account of changes in regulations or management processes or any other assignment or considerations.

The Audit Committee considered various parameters like audit experience, clientele served, industry knowledge etc., and found Sudit K. Parekh & Co. LLP suitable to handle the scale, diversity and complexity associated with the audit of the financial statements of the Company.

Sudit K. Parekh & Co. LLP have given their consent to act as the statutory auditors of the Company and have confirmed that the said appointment, if made, will be in accordance with the conditions prescribed under Sections 139 and 141 of the Act.

None of the Directors, Key Managerial Personnel or their respective relatives, are concerned or interested in the Resolution mentioned at Item No. 4 of the Notice.

The Board recommends the Ordinary Resolution set out at Item No. 4 of the Notice for approval by the members.

Statement pursuant to Section 102 (1) of the Companies Act, 2013

Item No. 5

The Board, at its meeting held on 9th September, 2022 appointed Brig. Ashutosh Nargolkar (Retd.) as an Additional Director under Independent Category, pursuant to Section 161 of the Companies Act, 2013, read with Article 128 of Articles of Association of the Company, who will hold office up to the date of the ensuing AGM. Pursuant to provisions of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 the Company is required to have 50% of its Board Capacity as Independent. In compliance with these provisions Brig. Ashutosh Nargolkar (Retd.) was appointed by the Board. The Board, on the recommendation of Nomination and Remuneration Committee, has proposed his appointment as Independent Director for tenure of 1 year in the ensuing AGM. A brief profile of Brig. Ashutosh Nargolkar (Retd.) is provided in the 46th Director's Report appearing in the Annual Report. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Industry Structure and Development :

After recovering from the Covid-19 related setback, the Indian economy achieved a growth of 8.7% in the financial year 2021-22 which was appreciable as compared to 7.3% in the previous year. Overall economic impact of Covid-19 second wave in the first quarter of FY 2021-22 was limited and was much smaller than that of the first wave. The Government of India's policy to improve infrastructure and other measures to enhance farmers income will support the Country's economic recovery. Gradual revival in capex spending over the pre-pandemic level was also driven by Government's continued thrust on infrastructure investments. In terms of sectoral growth, all the core sectors have posted good recovery comparable to pre-pandemic levels. Poultry sector continued to witness steady recovery after the initial setback in terms of consumption of poultry products.

2. Opportunities, Threats, Risks and Concerns :

The poultry sector is poised to maintain its growth based on the recommended level of 180 eggs and 11 kgs of meat as per capita consumption by the National Institute of Nutrition. Since the present per capita consumption is only 82 eggs and 4.9 kgs of meat, there is huge scope for the growth of the poultry sector for the next 15 years or so. As the negative impact of Covid-19 is receding fast, the poultry sector is expected to resume its normal growth and it is projected that investment in expanding the infrastructure will once again pick up. Cold storage facilities in India, though available in scattered locations, need in large capacities and in multi locations which will augur well for the processing section of the poultry sector's growth. Volatile nature at elevated levels in price movements of maize and soya are causing financial constraints for all the poultry farmers and is resulting in steep erosion in profit margins.

3. Segmentwise Performance:

a. Poultry and Poultry Products

The Company's major business segment is poultry and poultry products which consist of production and sale of day old broiler and

layer chicks, specific pathogen free eggs, processed chicken products and poultry feed. In F.Y. 2021-22 this segment's turnover was Rs. 1,711.56 Cr. as compared to Rs. 1,428.91 Cr in the previous year. The segment registered a profit before tax and interest of Rs. 56.53 Cr as compared Rs.266.32 Cr. in the previous year.

b. Animal Health Products

The Company has its animal health products manufacturing facility at Pune. This segment's sales turnover was Rs.290.03 Cr. as compared to Rs. 216.71 Cr. in the previous year. Profit before tax and interest was Rs.57.01 Cr. as against Rs.44.14 Cr. in the previous year.

c. Oilseed

This segment registered a sales turnover of Rs.2,567.81 Cr. as compared to Rs.1,575.75 Cr. last year. Profit before tax and interest was Rs.134.39 Cr. as against Rs. 84.73 Cr. in the previous year.

4. Outlook

Growth of poultry sector and your Company is linked to the growth of the Indian economy. With the economy showing signs of growth, we anticipate a steady growth in the case of Venky's. Your Company has built and nurtured a diversified portfolio within the poultry sector in the last two decades which will help to maintain growth rates in all the three segments. However, in a highly volatile environment wherein the cost of poultry feed stays at higher levels, it is our endeavour to deal with this challenge in the most efficient manner while efforts will be made to pass on the increase in input costs at regular intervals so as to maintain and improve the Company's financials. Steps will also be taken to continue to invest in future-ready capabilities to further strengthen the production capacities of all the segments.

5. Internal Control Systems and their adequacy

The internal control system is designed to ensure that all the financial and other records are reliable for preparing financial statements and

for maintaining accountability of the assets. The Company has a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorised use or disposition and that transactions are authorised, recorded and reported correctly.

Commensurate with the size of operation, your Company has Internal Audit department which continuously reviews the internal control system by an exclusive programme of Internal Audit. The significant findings are then discussed by the Audit Committee of Directors and corrective measures are initiated. The Audit Committee also monitors the implementation of recommendations made by it.

6. Discussion on Financial Performance with respect to Operational Performance:

The Company's turnover grew by 41% at Rs.4,400.29 Cr. as compared to Rs. 3,116.63 Cr. in the previous year. The Company registered a profit of Rs. 164.78 Cr. as compared to Rs.267.74 Cr. in the previous year.

To

The Members,

VENKY'S (INDIA) LIMITED,
"Venkateshwara House",
S.No.114/A/2, Pune-Sinhagad Road,
Pune - 411030.

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by VENKY'S (INDIA) LIMITED - CIN L01222PN1976PLC017422 (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has during the audit period covering the financial year ended on 31st March, 2022 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2022 and made available to me, according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the Rules made thereunder.
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the Rules made thereunder;

INDEPENDENT AUDITORS' REPORT

To,
The Members of
Venky's (India) Limited

Report on the Audit of Financial Statements

Opinion

We have audited the accompanying financial statements of Venky's (India) Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2022, the Statement of Profit and Loss, (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2022, and profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

- (i) **Valuation of Biological Assets** - (as described in note 1.3 (j), note 3.2 and note 7.2 of the financial statements)

Description of Key Audit Matter:

Biological assets include Poultry for live-stock breeding (Broiler and Layer Parents), hatching eggs, Specific Pathogen Free Eggs (S.P.F Eggs), Commercial Eggs and live commercial broiler birds. Biological assets, except breeder flock are measured at fair value less cost to sell.

Ind AS 41- Agriculture and Ind AS 113 – Fair Value Measurement deal with recognition and measurement of fair value of biological assets respectively. The fair value measurement requires consideration of market approach, cost approach and income approach.

Considering the distinctiveness of lifecycle of Biological Assets, the market benchmarks for valuation are difficult to ascertain / find. Additionally, the determination of best fit valuation technique using fair value

estimates is a complex process involving significant judgments and estimates regarding inputs. The value of the Company's biological assets as at 31st March, 2022 amounts to INR 19,343.76 Lakhs, which is a significant component of the Balance Sheet. Therefore, we have considered it to be a key audit matter.

Description of Auditor's response:

We have gained adequate understanding of the nature of biological assets lifecycle and applied the prescriptions given in Ind AS 41 and Ind AS 113 in their context. We have undertaken audit procedures in relation to accounting of biological assets, controls exercised and valuation methods adopted by the management over biological assets with a view to evaluate their appropriateness and compliance with the applicable accounting principles.

Identification and classification of biological assets is a key determinant and was examined and evaluated. We analysed the valuation approaches adopted by management for each class of biological assets for their appropriateness based on the principle of highest and best possible use as laid down in Ind AS 41. We also audited the methodology used by the Company and verified reasonableness of inputs / assumptions used by the Company including production life cycle, feed consumption and mortality rates. Further we have analytically reviewed the results of valuation and compared the same with the past trends. Finally, the appropriateness and adequacy of the presentation and disclosure of biological assets in the financial statements was audited. Based on the above work performed, no exceptions were noted.

(ii) **Transactions with related parties** - (as described in note 12 of the financial statements)

Description of Key Audit Matter:

The Company operates within a conglomerate of group entities. The parent company and associates, operate in the line of business as the Company. The transactions with related parties are significant that have effect over both statement of profit and loss and balance sheet described in detail in Note 12 of financial statements and include sales, purchases, advances etc.

These group companies operate in the same sector and have significant transactions amongst themselves during the year. Such transactions with related parties are necessitated to be at arm's length, they involve significant cash flow between parties, intercompany contracts, and common management amongst other things, they are considered to be a key audit matter.

Description of Auditor's response:

Audit procedure included identification of related party relationships, classification, examination of transactions from the perspective of arm's length criteria adopted by the Board of Directors, risks attached to items such as collateral security, interest rate and recovery of other receivable, ageing and provisioning policies and practices, review of confirmation and reconciliation process, review of controls and analytical review of various account balances and transaction balances amongst other things. Based on the above work performed, no exceptions were noted.

Other Information

The Company's Board of Directors is responsible for the other information. The Other information comprises the Management Discussion and Analysis Report, Directors' Report including Annexures to Directors' Report, Report on Corporate Governance and Business Responsibility Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work

we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However,

future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2020 ('the Order'), issued by the Central Government of India, in terms of sub-section (11) of section 143 of the Act, we give in the Annexure 'A' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

According to the information and explanations given to us and based on our audit procedures and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further opine that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. (a) According to the information and explanations provided to us and based on our audit procedures, we are of the opinion that in respect of other than ongoing projects, the Company has no unspent amount to be transferred to a Fund specified in Schedule VII to the Companies Act, 2013 within a period of six months of the expiry of the financial year in compliance with second proviso to sub-section (5) of section 135 of the said Act.
- (b) According to the information and explanations provided to us and based on our audit procedures, the Company does not have any ongoing projects, hence, the Company need not transfer any amount to a special account, within a period of thirty days from the end of the financial year in compliance with section 135(6) of the said Act.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the Members of the Company)

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (i) OF SUB-SECTION 3 OF SECTION 143 OF THE ACT

We have audited the internal financial controls over financial reporting of Venky's (India) Limited ("the Company") as of 31st March, 2022 in conjunction with our audit of the accompanying financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation

Venky's (India) Limited

of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

1.2 BASIS OF PREPARATION

Compliance with Ind AS

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") as notified by Ministry of Corporate affairs pursuant to section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments through Companies (Indian Accounting Standards) Amendment Rules thereafter.

The financial statements have been prepared on accrual and going concern basis. Except for the changes below, the accounting policies are applied consistently to all the periods presented in the financial statements.

Current / non-current classification

All assets and liabilities have been classified and disclosed as current or non-current as per the Company's normal operating cycle and other criteria set out in division II of Schedule III of the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as up to twelve months for the purpose of current or non-current classification of assets and liabilities.

Basis of measurement

The financial statements have been prepared on a historical cost basis, except for the assets and liabilities that require measurement at fair value in accordance with Ind AS. These assets and liabilities mainly consist of biological assets and certain financial instruments.

The financial statements are presented in Indian Rupees and all values are rounded to the nearest lakhs (INR 00,000) except otherwise indicated.

1.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Key accounting estimates and judgements

The preparation and presentation of financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities on the date of the financial statements and reported amounts of revenues and expenses during the period.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Accounting estimates could change from period to period. Any revision to accounting estimates is recognized prospectively in the current and future periods, and if material, their effects are disclosed in the financial statements. Actual results could differ from the estimates. Any difference between the actual results and estimates are recognized in the period in which the results are known/materialize.

Information about critical judgements in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

1. Measurement of defined benefit obligations.
2. Measurement and likelihood of occurrence of contingencies.
3. Recognition of deferred tax assets/liabilities.
4. Impairment of intangible assets.
5. Determination of fair value of biological assets.

b. Property, plant and equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses, if any; except for land including lease hold land, which is stated at cost less impairment, if any. Cost comprises of purchase price net of trade discounts and rebates, non-refundable duties and taxes, any directly attributable cost of bringing the asset to its working condition for its intended use. Cost also includes borrowing cost directly attributable to acquisition / construction of a qualifying asset up to the date the asset is ready for its intended use.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

Capital work-in-progress comprises the cost of property, plant and equipment that are yet not ready for their intended use at the balance sheet date.

The depreciable amount of a depreciable property, plant and equipment is allocated on a systematic basis to each accounting period over the useful life of the asset. Management's estimate of useful life is as stipulated in Schedule II to the Companies Act, 2013.

The useful life is for the whole of the asset, except where cost of a part of the asset is significant to total cost of the asset and useful life of that part is different from the useful life of the remaining asset, useful life of that significant part ("component") is determined separately and the depreciable amount of the said component is allocated on a systematic basis to each accounting period during the useful life of the asset

In arriving at the depreciable amount, residual values considered are not more than 5% of the original cost of the asset. The residual values and useful lives of property, plant and equipment are reviewed at each financial year end and adjusted if appropriate.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Leasehold improvements are amortised over a period of lease or useful life whichever is less.

Depreciation on assets acquired during the year is calculated on a pro-rata basis from the date of addition. Similarly, depreciation on assets sold, discarded, demolished or destroyed during the year is also calculated on a pro rata basis up to the date on which such asset has been sold, discarded, demolished or destroyed. Depreciable assets costing up to Rupees 5,000/- are depreciated fully in the year of acquisition.

c. Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value. Acquisition-related costs are expensed as incurred.

When the Company acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised either in profit or loss or as a change to other comprehensive income (herein after referred to as "OCI"). If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

d. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite. An intangible asset shall be regarded by the entity as having an indefinite useful life when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows for the entity. Indefinite life intangibles mainly consist of brands/ trade mark/ Technical know-how etc. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues. If not, it is impaired or changed prospectively basis revised estimates.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

The amortization expense on intangible assets is recognised in the statement of profit and loss.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Acquired intangible assets are amortized on a straight line basis over the useful lives of the intangible assets, as estimated by the management. Management estimate of useful life of Intangible assets are as follows:

Software	-	3 years
Trade mark/Technical know-how/License cost	-	5 years

e. Impairment of assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated.

These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to projected future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss.

If, in a subsequent period, the amount of the impairment loss decrease and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the reversal of the previously recognised impairment loss is recognised in the statement of profit and loss.

f. Fair value measurement

The Company measures financial instruments such as Investments in Mutual Funds and certain non-financial assets such as biological assets, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, In the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Management of the Company determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and for non-recurring measurement, such as assets held for distribution in discontinued operations.

Independent external valuers are involved for valuation of derivative for hedge agreements. Criteria for selection of the independent external valuers include market knowledge, reputation, independence and whether professional standards are maintained. The management decides, after discussions with the independent external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the Company analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies. For this analysis, the Company verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Company, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

g. Income Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting nor taxable profit or loss.

The deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, to the extent it would be available for set off against future current income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefits associated with the asset will be realised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss.

Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxation authority.

h. Government grants

Government grants are recognized by the company where there is reasonable assurance that the grant will be received and all the attached conditions will be complied with. Revenue grants are recognized in the statement of profit and loss in the same period, in which the related costs are incurred are accounted for.

Government grants related to assets are recognized / presented as deferred income, i.e. wherever the company receives capital grants towards asset acquisition, the grant received thereon are recognized as an income in the statement of profit and loss over the useful life of the asset.

i. Inventories

Inventories are valued at lower of cost and net realizable value (except as otherwise stated) on an item-by-item basis, as under:

Raw materials, packing materials, stores and spares:

Cost of inventory comprises all costs of purchase, duties and taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition. Raw materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a first-in first-out formula.

Cost of oilseeds inventories is determined on quarterly moving weighted average basis.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Work-in-progress and finished goods:

Cost includes direct materials and costs of conversion in the form of Labour and a systematic allocation of fixed and variable production overheads. It also includes other costs which are incurred in bringing the inventories to their present location and condition. The allocation of fixed production overheads is based on normal capacity of production. Realisable value of pre-determined normal rate of scrap is deducted from the cost of inventories. However, cost of inventories neither includes abnormal amounts of wasted material nor any scrap realisations there from.

By products and scrap are recognised at their net realisable value.

For the production processes which result in more than one product being produced, costs of conversion are allocated between the joint products based on relative sales value of each product at the stage when the products become separately identifiable. Net realizable value of by-products as well as scrap is deducted from the cost of main product.

Stock-in-trade:

Cost includes cost of purchases, duties and taxes (other than those subsequently recoverable from authorities) and other costs which are incurred in bringing the inventories to their present location and condition. Cost is determined on a first-in first-out formula.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make sale.

j. Biological Assets

Biological assets include Poultry for live-stock breeding parent (Broiler and Layer), hatching eggs and live commercial birds (Broiler and Layer).

Biological assets, except breeder flocks and commercial layer birds are measured at fair value less cost to sell.

The valuation of the Breeder biological assets and commercial layer birds are determined on the following basis:

Birds are used for captive consumption or to support farmers, it is uncommon to be sold before the end of its useful life and as such, there is no active market for the Company's useful breeding stock and commercial layer birds. Other references to market prices such as market prices for similar assets are also not available due to the uniqueness of the breed. Valuation based on a discounted cash flow method is considered to be unreliable given the uncertainty with respect to mortality rates and production. Consequently, breeder flocks and commercial layer birds are measured at cost, less depreciation and impairment losses.

Breeder flocks are depreciated over the production cycle which is estimated to be ten to twelve months on average based on anticipated output month to month.

The fair value of the consumable biological assets is determined on the following basis:

The fair values of biological assets are level 3 fair values and are determined based on market prices or where market prices are not available, by reference to sector benchmarks.

Level 1 inputs could not be used due to the unique breed used by the Company due to which identical products are not available in the market.

Level 2 inputs require adjustments to be made in quoted or unquoted prices available for similar products. The qualitative adjustments are highly subjective and may not show the true & fair picture.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Hence, Level 2 inputs are ruled out from the selection criteria of valuation.

Gain and losses arising on the initial recognition of biological asset at fair value less estimated point of sale costs and from a change in fair value less estimated point-of-sale costs are recognised in the statement of profit and loss in the period in which they arise.

k. Investments and other financial assets

Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit and loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss account.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the assets and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- Amortized cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in interest income using the effective interest rate method.

- Fair value through other comprehensive income (FVTOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the asset's cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI). Movements in the carrying amount are taken through OCI, except for recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

- **Fair value through profit or loss**

Assets that do not meet the criteria for amortized cost or FVTOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and FVTOCI debt instruments. Note 7.3 details how the Company assesses the impairment losses.

Derecognition of financial assets

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Whether the Company has not transferred substantially all risks and rewards of ownership of financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, if so, the nature of the item being hedged and the type of hedge relationship designated.

The Company designates their derivatives as hedges of foreign exchange risk associated with the cash flows of highly probable forecast transactions and variable interest rate risk associated with borrowings (Cash flow hedges).

The Company documents at the beginning of the hedging transaction the economic relationship between hedging instruments and hedged items including whether the hedging instrument is expected to offset changes in the cash flows of hedge items. The Company documents its risk management objective and strategy for undertaking various hedge transactions at the inception of each hedge relationship.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

The fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months. It is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

Cash flow hedges that qualify for hedge accounting

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income in cash flow hedge reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, within other gains/ (losses).

When option contracts are used to hedge forecast transactions, the Company designates only the intrinsic value of the option contract as the hedging instrument. Gains or losses relating to the effective portion of the change in intrinsic value of the option contracts are recognised in the cash flow hedging reserve within equity. The changes in the fair value of the option contracts that relate to the hedged item ('aligned time value') are recognised within other comprehensive income in the costs of hedging reserve within equity.

When forward contracts are used to hedge forecast transactions, the Company designates the full change in the fair value of the forward contract (including forward points) as the hedging instrument. Gains or losses relating to the effective portion of the change in fair value of the entire forward contract are recognised in the cash flow hedging reserve within equity.

Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedge item affects profit or loss.

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any accumulated deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs. When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred cost of hedging that were reported in equity are immediately reclassified to profit or loss within other gains/losses.

If the hedge ratio for risk management purpose is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedge item so that the hedge ratio aligns with the ratio used for risk management purpose. Any hedge ineffectiveness is calculated and accounted for in profit or loss at the time of hedge relationship rebalancing.

I. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

m. Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

n. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, cash on deposit with banks, other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown in current liabilities in the balance sheet.

o. Borrowings

Borrowings are initially recognised at fair value, net of transactions cost incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent, there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has not extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/ (losses).

p. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset till the asset is ready for its intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest expense recognised in the profit and loss account over the period of borrowing using effective interest method and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

q. Provisions and Contingent Liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A disclosure for contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an out flow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

r. Trade and other payables

Trade and other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

s. Revenue recognition

Revenue from contracts with customers is recognized on satisfaction of performance obligation, which occurs on transfer of control of promised goods or services to a customer i.e. at a point in time, at an amount that reflects the consideration to which the Company is expected to be entitled to in exchange for those goods or services.

The Performance Obligations in our contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms.

Interest Income

Interest income is recognised using effective interest method on time proportion basis taking in to account the amount outstanding.

Dividend income

Dividend income is recognised when the Company's right to receive is established by the reporting date, which is generally when shareholders approve the dividend.

t. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease, if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company, at the inception of a contract, assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration. This policy has been applied to contracts existing and entered into on or after April 1, 2019.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the statement of profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets (assets of less than INR 1 Lakh in value). The Company recognises the lease payments associated with these leases as an expense over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

The Company has decided to recognise operating lease as expense/ income on a straight-line basis since the management believes that straight-line method is more representative of the time pattern of the user's benefit.

u. Foreign currencies

The Company's financial statements are presented in Indian Rupees, which is also the Company's functional currency. Items included in the financial statements of the Company are recorded using the currency of the primary economic environment in which the Company operates (the "functional currency").

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

v. Employee benefits

Short term employee benefits

All employee benefits which are expected to be settled wholly within twelve months after the end of the period in which employee renders the related service are classified as short-term employee benefits. Undiscounted value of short term benefits such as salaries, wages, bonus and ex-gratia are recognized in the period in which the employee renders the related service.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Post-employment benefits

Defined Contribution Plans:

The Company's Employee's Provident Fund scheme, Employee's State Insurance Scheme and Employee's Superannuation Scheme are defined contribution plans. The Company's contribution payable under the schemes is recognized as an expense in the statement of profit and loss during the period in which the employee renders the related service.

Defined benefit plan

Gratuity

The Company operates a defined benefit gratuity plan, which requires contributions to be made to a separately administered fund. The surplus or deficit arising in the defined benefit plan on the balance sheet date comprises of the total for each of the fair value of plan assets less the present value of the defined liabilities.

The cost of providing benefits under the defined benefit plan is determined based on independent actuarial valuation using the projected unit credit method. The gratuity liability is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, is based on the market yield on government securities as at the balance sheet date.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

The date of the plan amendment or curtailment, and

The date that the Group recognises related restructuring cost.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

Other long term employee benefits:

Entitlement to annual leave is recognized when they accrue to employees. Annual leave can either be availed or en-cashed subject to a restriction on the maximum number of accumulation of leaves. The present value of the liability is determined based on independent actuarial valuation using the Projected Unit credit method. The discount rates used for determining the present value of the liability is based on the market yields on Government securities as at the balance sheet date. Actuarial gains and losses are recognized immediately in the statement of profit & loss.

w. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the management of the company.

Identification of segments

The Company's management examines the Company's performance both from a product and geographic perspective. The Company's operating businesses are organised and managed separately according to the nature of products, with each segment representing a strategic unit that offers different products and serves different markets.

The analysis of the geographical segments is based on the areas in which major operating divisions of the Company operate. Revenues and receivables are specified by location of customers while other geographical information is specified by the location of the assets. Since all the assets are located in India and revenue from customers located out of India is less than 10% of total revenue, there are no reportable geographical segments.

Intersegment transfers

The Company accounts for intersegment sales on the basis of price charged for inter segments transfers.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items

Unallocated items include general corporate income and expense items which are not allocated to any business segment.

Segment accounting policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

x. Earnings per share

Earnings per share (EPS) is calculated by dividing the net profit for the year attributable to the equity shareholders by weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and weighted average number of shares outstanding during the period is adjusted for the effects of all diluted potential equity shares.

Notes:

7 The Company tests Goodwill impairment at the end of each reporting period annually.

Net carrying value of Goodwill of Rs. 1,009.94 Lakhs relates to the acquisition of North based poultry from Venkateshwara Hatcheries Private Limited in March 2014 situated at Naraingarh - Haryana and Nalagarh - Himachal Pradesh. This division is engaged in the production of commercial layer chicks.

The recoverable amount of each CGU is determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management, which include assumptions on profit before interest and tax, depreciation, working capital movements and capital maintenance expenditure.

Cash flows have been forecasted to grow at 8%. Cash flows beyond a five-year period are extrapolated using the estimated growth rates stated below.

Key assumptions used in the goodwill impairment test:

Discount rate (%)	Perpetuity growth rate (%)	Period (years)
18%	3%	5

The perpetuity growth rate is consistent with long-term industry growth forecasts.

The discount rate reflects specific risks relating to the CGU.

No impairment was required in the current year.

Sensitivity analysis of assumptions used in the goodwill impairment test:

Discount rate – (%) -1%	Perpetuity growth rate – (%) -1%	Cash flow growth rate – (%) -1%
– Impairment (Rs) _Nil	– Impairment (Rs) _Nil	– Impairment (Rs) _Nil

Nature and purpose of reserves

(a) Capital Reserves:

Amount received on reissue of forfeited shares and debentures is treated as capital reserve.

During amalgamation, the excess of net assets taken, over the cost of consideration paid is treated as capital reserve.

- (b) General Reserve: The Company has transferred a portion of the net profit of the Company before declaring dividend to general reserve pursuant to the earlier provisions of Companies Act, 1956. Mandatory transfer to general reserve is not required under the Companies Act, 2013. However, the Company has voluntarily transferred an amount of Rs. 5,000 Lakhs (Previous year Rs. 5,000 Lakhs) to general reserve.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

- (c) Retained Earnings: Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.
- (d) Re-measurement gains / (losses) on defined benefit plans: Differences between the interest income on plan assets and the return actually achieved, and any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans, are recognised in 'Other comprehensive income' and subsequently not reclassified to the Statement of Profit and Loss.
- (e) Cash flow Hedge Reserve: The fair value change of the effective portion of the hedge agreements entered with bankers measured at fair value through other comprehensive income is recognised in effective portion of cash flow hedge reserve.

Fair value estimation

Ind AS 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table presents the Company's assets and liabilities that are measured at fair value as at:

	Level 1	Level 2	Level 3	Total
(Rupees in Lakhs)				
31st March 2022				
Assets				
- Investments in mutual funds	6,979.95	-	-	6,979.95
- Biological assets	-	-	8,838.01	8,838.01
31st March 2021				
Assets				
- Investments in mutual funds	4,515.90	-	-	4,515.90
- Biological assets	-	-	10,862.46	10,862.46

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the company is the current bid price. These instruments are included in Level 1. Instruments included in Level 1 comprise of investments in mutual funds.

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The following valuation techniques and significant inputs were used to measure the level 3 inputs.

In measuring the fair value of biological assets, management estimates and judgements are required for the determination of fair value.

These estimates and judgements relate to the market prices, average weight and quality of animals and mortality rates.

Description	Fair value as at 31 March 2022	Unobservable input	Range of unobservable input	Relationship of unobservable input to fair value
Biological assets	8,838.01	Hatching Eggs per hen	187 -260 Eggs	The higher the eggs per hen, the higher the fair value
		Mortality	5.00%	The higher the mortality, the lower the fair value
		Average Body Weight	1.75 kgs - 2.50 kg per bird	The higher the average body weight, the higher the fair value

7.3 FINANCIAL RISK MANAGEMENT

Financial risk factors

This note presents information about the Company's exposure to financial risks, the Company's objectives, policies and processes for measuring and managing these risks and the Company's management of capital.

The Company's financial instruments consist primarily of cash and cash equivalents, investment in mutual funds, loans receivable, trade and other receivables and payables and long term and short term borrowings. In the normal course of business, the Company is exposed to credit, liquidity and market risk.

The Board has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training, management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivable from customers. Credit risk primarily relates to trade and other receivables.

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of counterparty to which the Company grants credit terms in the normal course of business.

The Company has used expected credit loss (ECL) model for assessing the impairment loss. For this purpose, the Company uses a provision matrix to compute the expected credit loss amount. The provision matrix takes into account external and internal risk factors and historical data of credit losses from various customers.

Other receivables consist primarily of security deposits, loans to employees and other receivables.

The risk of default is assessed as low.

Liquidity risk

The Company actively monitors its cash flows to ensure there is sufficient cash available to meet its working capital requirements. Due to the dynamic nature of the underlying businesses, the Company maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's cash and cash equivalents on the basis of expected cash flow.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

The Company's current trade and other payables are all due within one year.

The table below summarises the maturity profile of the Company's financial liabilities as at 31st March 2022 based on contractual undiscounted payments:

(Rupees in lakhs)

Particulars	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Long term borrowings	800.00	480.94	-	-	1,280.94
Short term borrowings	17,913.70	-	-	-	17,913.70
Lease liabilities	213.97	208.35	137.68	103.93	663.93
Trade payables	40,325.24	-	-	-	40,325.24
Other financial liabilities	626.48	28.00	8.00	65.50	727.98

Market risk

Interest rate risk

The Company is exposed to interest rate risk on its cash and cash equivalents, long-term loans and borrowings, which can have an impact on the cash flows of these instruments. The exposure to interest rate risk is managed through the Company's Board by using counterparties that offer the best rates which enables the Company to maximise returns whilst minimising risk.

Interest is paid on monthly basis based on the actual interest rate prevailing during the month. Hence, the Company is not significantly exposed to interest rate risk on such borrowings.

Foreign currency risk

In the normal course of business the Company enters into transactions denominated in Indian Rupees and few transactions in foreign currencies. The Company is subject to exposure from fluctuations in foreign currency exchange rates. Company's exposure to unhedged foreign currency changes is not significant.

Commodity price and procurement risk

Commodity price risk arises from the risk of an adverse effect on current or future earnings from fluctuations in the prices of commodities.

The principal directive is to procure commodities at the lowest cost to meet forecast requirements, both internally and for external sales. The overall procurement strategy and net positions are reported monthly to the Board and the oversight committees. The oversight committees are responsible for the setting of the monthly company view with regard to future price movements. The daily trading by the procurement teams are restricted in terms of this company view, unless prior approval is obtained from the oversight Committees.

Capital risk management

The Board's policy is to maintain a strong capital base so as to maintain shareholder, creditor and market confidence and to sustain the future development needs of the business. The Board monitors both the spread of shareholders return on equity (which is defined as profit for the year expressed as a percentage of average total equity) and the level of dividends paid to shareholders. There were no changes to the Company's approach to capital management during the year.

The Company intends to contribute Rs. 500 Lakhs towards its gratuity fund during the financial year 2022-23.

(i) Weighted average duration:

Weighted average duration of the plan (based on discounted cash flows using mortality, withdrawal rate and interest rate) is 14.38 years.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

(j) Risk Exposure:

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Liability Risks

a. Asset liability mismatch risk

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the company is successfully able to neutralize valuation swings caused by interest rate movements.

b. Discount Rate Risk

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practise can have a significant impact on the defined benefit liabilities.

c. Future Salary Escalation and Inflation Risk -

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

Asset Risks

All plan assets are maintained in a trust fund managed by a private sector insurer viz; ICICI Prudential Life insurance of India. The company has opted for a unit-linked fund which is market linked with options to invest in equity funds. The company has the option to structure the portfolio based on its risk appetite providing an opportunity to earn market linked returns. But there is an investment risk here which is borne by the company. A single account is maintained for both investment and claim settlement and hence 100% liquidity is ensured.

11.1 SEGMENT REPORTING

Business segment

The Company's management examines the Company's performance both from a product and geographic perspective and has identified three reportable segments of its business. The 'Poultry and Poultry Products' segment produces and sells chicks, grownup commercial broiler and layer, processed chicken, S.P.F. eggs, poultry feed and other miscellaneous poultry products. The 'Animal Health Products' segment produces and sells medicines and other health products for birds. The 'Oilseed Segment' produces and sells edible refined soya oil and soya de-oiled cake.

The operating businesses are organised and managed separately according to the nature of the products, with each segment representing a strategic business unit that offers different products and serves different markets. Transfer price between segments are measured on the basis of price charged for inter segment transfers. Segment revenue includes transfer between inter segments. Those transfers are eliminated in total revenue. Corporate expenses are allocated to other segments at cost.

Geographical segment

Revenue and receivables are specified by location of customers while other geographic information is specified by location of the assets.

DIVIDEND DISTRIBUTION POLICY

1. Introduction:

The Securities And Exchange Board of India vide notification No. SEBI/ LAD-NRO/GN/2016-17/008 dated 8th July 2016 amended the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. The said amendment requires top five hundred listed entities based on market capitalization (calculated as on March 31 of every financial year) to formulate a dividend distribution policy which shall be disclosed in their annual reports and on their websites.

2. Applicability:

Venky's (India) Limited, as on 31st March 2018, falls well within the criteria as mentioned above and therefore needs to formulate and disclose the dividend distribution policy as required by the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) (Second Amendment) Regulations, 2016. This policy will be applicable to dividend payable to equity shareholders of the Company.

3. Dividend:

According to the generally accepted definition, "dividend" means the profit of a company that is not retained in business and is distributed amongst the shareholders in proportion to the amount paid-up on the shares held by them. For the purpose of this policy dividend shall mean dividend proposed and payable to equity shareholders only and shall include interim dividend as defined in Section 2(35) of the Companies Act, 2013.

4. Parameters of Dividend Distribution Policy:

(a) The circumstances under which the shareholders may or may not expect dividend:

The circumstances under which the shareholders may or may not expect dividend depends upon internal as well as external factors which shall be considered by the company while declaring the dividend. Generally, the internal factors may be defined as those factors which are part and parcel of the organization and may be in control of the company whereas external factors are those which are beyond the control of the management. In some cases, both the factors will be inter-connected to each other and decision of dividend will always be taken after jointly considering the factors. In addition to the above, shareholders may not expect dividend in case of inadequacy of profits or losses. The internal and external factors are defined in clause 4 (b) of this policy.

(b) Internal and external factors that shall be considered for declaration of dividend:

Internal Factors:

- Profit for the year under consideration;
- Expansion plans in near future;
- Availability of surplus funds;
- Short term and long term liabilities of the Company;
- Cyclical nature of business;
- Corporate actions such as Bonus, Split of Shares etc.;
- Past dividend distribution record of the Company.

External Factors:

- State of the economy
- Monsoon
- Industry outlook
- Govt. Rules and Regulations

- Taxation policy
- Environment and Disease outbreak.

(c) The Company will consider the following financial parameters while declaring dividend:

- Cost of borrowing;
- Availability of alternate source of funding;
- Operating cash flows;
- Profitability.

5. Policy as to how the retained earning shall be utilized:

The retained earnings of the company shall be utilised as per the provisions of the Companies Act, 2013 and rules and regulations made thereunder. Generally, retained earnings shall be used for the following purposes:

- Issue of bonus shares;
- Declaration of dividend;
- Funding for expansion plans;
- Repayment of debts.

6. Payout Ratio:

Considering the parameters mentioned in this policy, the Company aims to provide a balance between rewarding its shareholders and retaining earnings for the Company's growth. The Company is engaged in the livestock industry which is prone to several unpredictable factors, like higher volatility in prices of feed ingredients, mis-match in demand and supply, vagaries of climatic conditions etc. Keeping these factors in mind, it is the endeavour of the Company that the dividend amount in each financial year will be stable and steady. Therefore, the Company will distribute dividend upto 10% of its after-tax profits in each financial year.

7. Parameters for various classes of shares:

Currently, the Company has only one class of issued shares i.e. equity shares to which this policy shall be applicable.

8. Changes / modification in the policy:

Any change or modification in the policy shall be made only after prior approval of the Board of Directors of the Company. Any change made in the current policy shall be informed to the shareholders of the Company in its annual report and on the website of the Company i.e. www.venkys.com

Dear Shareholder(s),

Option for ECS Mandate / Bank Mandate

ECS Mandate

As an added service to our shareholders, we are pleased to offer the facility of electronic credit of dividend directly to the respective bank accounts of our shareholders, through Electronic Clearing Service (ECS). Shareholders who would like to avail this facility are requested to fill up the mandate form provided on Page No.164 and submit the same to the Company' Registrar and Share Transfer Agent's office. This service not only protects a shareholder against fraudulent interception and encashment of dividend warrants but also eliminates dependence on postal system, loss / damage of dividend warrants in transit and correspondence relating to revalidation / issue of duplicate dividend warrants.

Kindly note that as per the directives of Securities and Exchange Board of India (SEBI), in respect of shareholders holding shares in dematerialised form, dividend shall be paid through ECS (where such facility is available) directly into the bank account furnished by the shareholders to their respective Depository Participant at the time of opening the Demat Account, provided that bank particulars and MICR details are made available to the Company in the beneficiary positions provided by NSDL & CDSL. **Such shareholders therefore need not submit the mandate form provided on the reverse of this letter but should ensure that the Bank particulars submitted to their respective Depositories are correct and valid.** In case it is desired to receive dividend in an account other than the one specified while opening the Demat Account, such shareholders may please inform the same to their respective Depository Participant immediately. The details informed to the Company or its Share Transfer Agent will not be considered in such cases.

Bank Mandate

Shareholders holding shares of the Company in physical form and who, for any reason, would not like to avail of the ECS facility being offered to such shareholders as mentioned above, are requested to furnish, (if not done earlier) in the mandate form provided on Page No.164, details of their Bank Account number and name of the Bank and the Branch, which would be printed on the dividend warrants to avoid fraudulent encashment thereof.

Kindly note that the ECS / Bank Mandate instructions should be under the signature of the shareholder(s) as per specimen lodged with the Company.

We seek your co-operation to enable us to serve you better.

Yours faithfully,

For **Venky's (India) Limited**
